Specifications:

- 8 Mil Thickness
- 48" width x 250' rolls
- UV Resistant
- Temperature Resistant
- Custom Printing

RUF Tacker™

Our **RUF Tacker™** underlayment is among the safest, most durable, and strongest underlayments available on the market. This underlayment has incredible traction wet or dry to prevent slipping. In addition, it's constructed with a woven, LDPE-coated HDPE scrim, it has proven far superior to popular felt underlayments.

Specifications:

- 11 Mil Thickness
- Widths of 4" & 6"
- UV Resistant
- Temperature Resistant
- Custom Printing

RUF Tape™

Our **RUF Tape™** is designed to supplement the use of our **RUF Tacker™** roofing underlayment. This flashing tape is adhered to a split liner for easy and accurate positioning and installation. It provides superior UV protection with the ability to withstand 6 months of UV exposure. Its durable construction provides temperature resistance to extreme heat and cold as well with a service temperature of -50°F - 176°F

Specifications:

- 8, 12, 16, 24 & 40 Mil Thicknesses Available
- UV Resistant
- Low Permeance
- Puncture Resistant

Shark Geomembranes™

Our **Shark Geomembranes™** are woven coated membranes featuring a HDPE scrim coated on both sides with LDPE. Our membrane material is tough, durable and resistant to abrasion. It's coating makes it chemical resistant while also providing resistance to ozone and oxidation. It is composed of non-toxic materials, making it perfect for almost any application including retention, containment and covers.

Specifications:

- 3', 8', 9' & 10' Widths
- Permeable (9 Perms)
- UV Resistant
- Temperature Resistant
- Custom Printing

Wolverine Wrap™

This innovative house wrap is a woven, perforated engineered polyolefin product that is built incredibly stronger than other conventional house wraps. **Wolverine Wrap™** is a high-quality, low-cost solution for preventing air leakage, controlling drafts, improving indoor air quality and protecting wall systems from water damage. It's superior design makes it capable of withstanding high stress and harsh environments.

Specifications:

- Waterproof
- Temperature Resistant
- UV Resistant
- Puncture Resistant
- Custom Printing

Nextarp™

Nextarp™ is the evolution of the common woven tarpaulin that utilizes advanced chemistry and materials engineering to produce an advanced, next generation, high performance tarpaulin. This technology originally developed in Sweden produces an environmentally friendly, light weight, water proof and flexible tarpaulin. **Nextarp™** is perfect for outdoor usage in coverings and protection.

Specifications:

- 100% Waterproof
- 35g & 75g Available
- UV Resistant
- Puncture Resistant
- Custom Printing

Kingfisher Sandbags™

Kingfisher™ is our brand of superior polypropylene sandbags. Constructed using the highest quality components, including tightly-woven polypropylene, these sandbags are built to withstand the most extreme elements. In addition, these sandbags are 100% waterproof, chemical resistant and puncture resistant making our bags ideal for flood relief and prevention.

The information presented in this publication is believed to be accurate and is not intended to constitute a specification. The values given reflect average material characteristics and may vary slightly between base suppliers. Users should evaluate the material to determine the suitability for their own particular application. Base on terms and conditions Seller's only obligation shall be to replace such quantity of the product proven to be defective. Seller shall not be liable for any injury, loss or damage, direct or consequential, arising out of the use, or inability to use the product for his/her use, and the user assumes all risk and liability whatsoever in connection therewith. The foregoing may not be changed, except by an agreement signed by an officer or seller.
