

Building & Construction Materials

Our innovative RUF™ product line offers one-of-a-kind quality and durability for all of your roofing and construction needs. These woven coated products provide exceptional moisture protection against the elements with high resistance to cold, heat and harsh weather. In addition, their high resistance to UV light makes RUF™ the choice products for any contractor or supplier.

Waterproofing

RUF™ Products offer superior waterproofing to help keep your new or existing buildings moisture free.

Durable Construction

The high quality woven coated HDPE and LDPE layered materials in RUF™ products provide long lasting durability

Temperature Resistant

RUF™ Products offer resistance to both extreme cold and extreme heat temperatures. With a service temperature from -10°C (-50°F) up to 80°C (176°F)

UV Protection

Our RUF™ products offer exceptional UV protection up to six months

Weather Protection

These RUF™ products provide outstanding durability against debris from high winds and harsh weather.

The RUF Tacker™ underlayment is among the safest, most durable, and strongest underlayments available on the market. This underlayment has incredible traction wet or dry to prevent slipping. It's constructed with a woven, LDPE-coated HDPE scrim, it has proven far superior to popular felt underlayments.

- Woven coated HDPE and LDPE scrim
- 8mil thickness
- 48" width x 250' roll (25lbs)
- Available in black or white with any custom logo print if needed

The RUF Tape™ flashing tape is adhered to a split liner for easy and accurate positioning and installation. It provides superior UV protection with the ability to withstand 6 months of UV exposure. Its durable construction provides resistance to extreme heat and cold as well.

- Spun bonded, woven coated polyester fabric
- 11mil thickness
- Service temperature from -10°C (-50°F) up to 80°C (176°F)
- Widths of 4" or 6"
- Lengths of 75' or 100' per roll
- Available in any custom color
